

Aquarium Industries

Quality Marine fish from one of Australia's most trusted suppliers.

QUALITY

Aquarium Industries marine ornamentals are healthy, high quality fish caught from well managed coral reefs. We also stock captive bred varieties, sourced from local suppliers.

Once they arrive at our modern facility, they are carefully acclimatised to artificial sea salts of the kind that your customers use at home, ensuring that they will settle quickly into their new homes once they leave your store.

We are confident in the quality of our Marines, and back them with an industry best guarantee – peace of mind for you.

GREAT RANGE, SO EASY TO ORDER

With several shipments arriving at our facility each week, our range is extensive, and constantly expanding.

Order online for access to new arrivals as soon as they become available, even before they appear in printed price lists. When you order online your stock is instantly reserved for you – so you can be sure that you will receive the stock that you want!

On arrival at your store, our labelled and bar-coded bags make it easy to receive your stock, and avoid any confusion about identification.

Quality fish from a trusted source – that's the AI advantage
