

Alg'Out

liquid anti-phosphate complex for freshwater aquarium

PACKAGING

- 100 ml for an aquarium from 4 000L (1 056 Gal)

- 250 ml for an aquarium from 10 000 L (2 500 Gal)

- 500 ml for an aquarium from 20 000 L (5 000 Gal)

ALG'OUT will trap the phosphates present in the water and make them unavailable for algae.

This product acts in the long term by eliminating one of the main causes of algae appearance.

Instructions for use: Use the product once and repeat the operation the following weeks if necessary after having tested your water.

Pour **ALG'OUT** at the end of your filtration. Make a regular water change every 2 to 3 weeks (20 to 30% of the volume of the aquarium).

- Do not leave within the reach of children

DOSAGE

- Aquarium from 0 to 100 L (0 - 26 Gal): 0 à 2,5 ml
- Aquarium from 100 to 200 L (26 - 53 Gal): 2,5 à 5 ml
